

Just a note to inform you that I am in agreement with the re-alignment or restructuring of the amateur radio licenses. I hold a 'Technician License' which I earned in September 2000. I am 72yrs old and I'm studying the morse code so I can up grade to a 'Technician Plus License' but with my memory at at 72 it is very difficult for me to memorize the code. All my life I've wanted an amateur radio license and I'm please that I even have the basic Tech License. I would love to be able to be up-graded to a 'General License' and I was very happy when I heard that there might be an up grade of the amateur radio licenses. I have never abused by radio priviledges and I'm always very courteous when I'm on 2 meters. Thank you for allowing me to express my opinion.
